Elizabeth Walter report (Triangle)

The purchase of a new iPad enabled us to “retire” our very old iPad that was beginning to show its age (very laggy and slow) this has enabled us to be more creative in our services due to better performing tech.

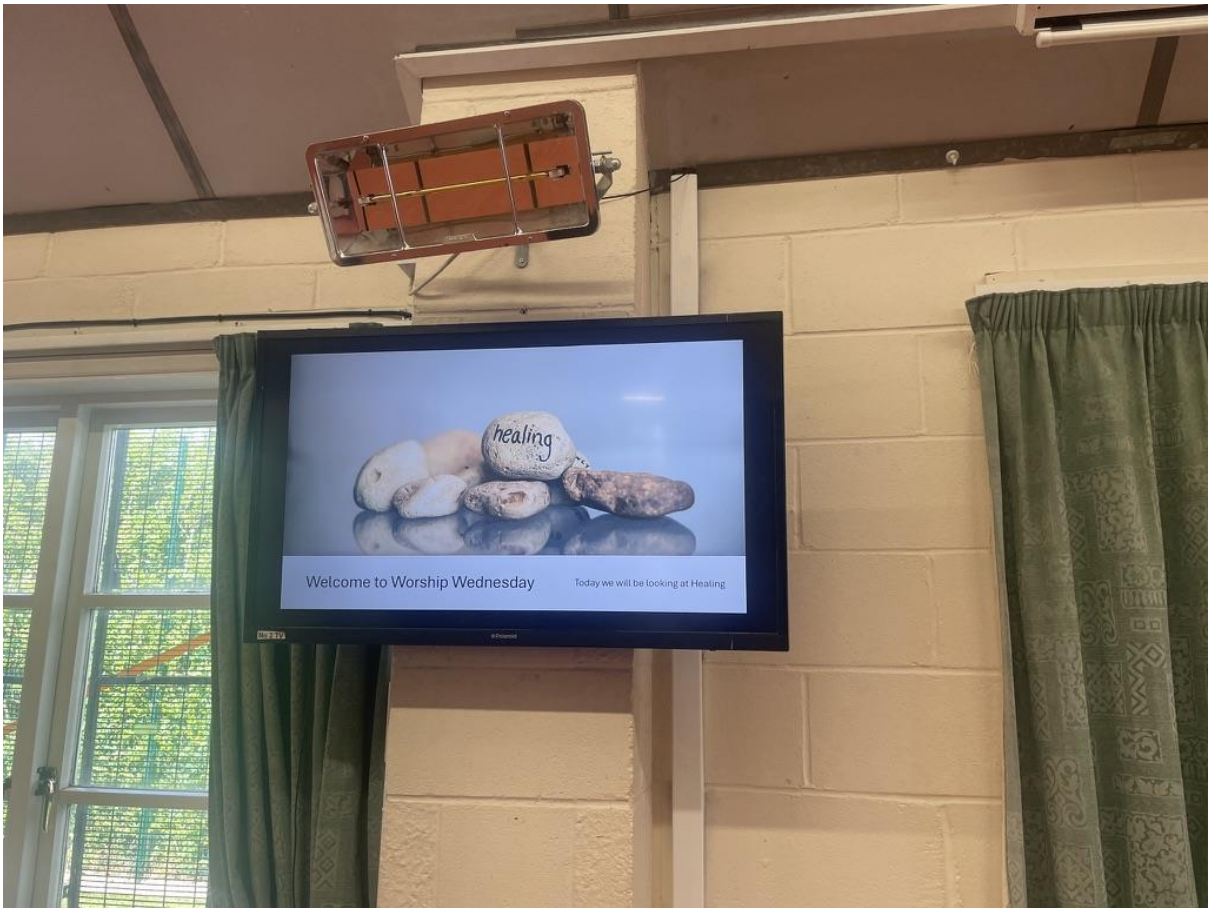

We are now able to show videos more easily, as well as continue to use I Sing as the musical element of our Services, we have also been able to use it for our Hope Explored and Christianity explored groups.

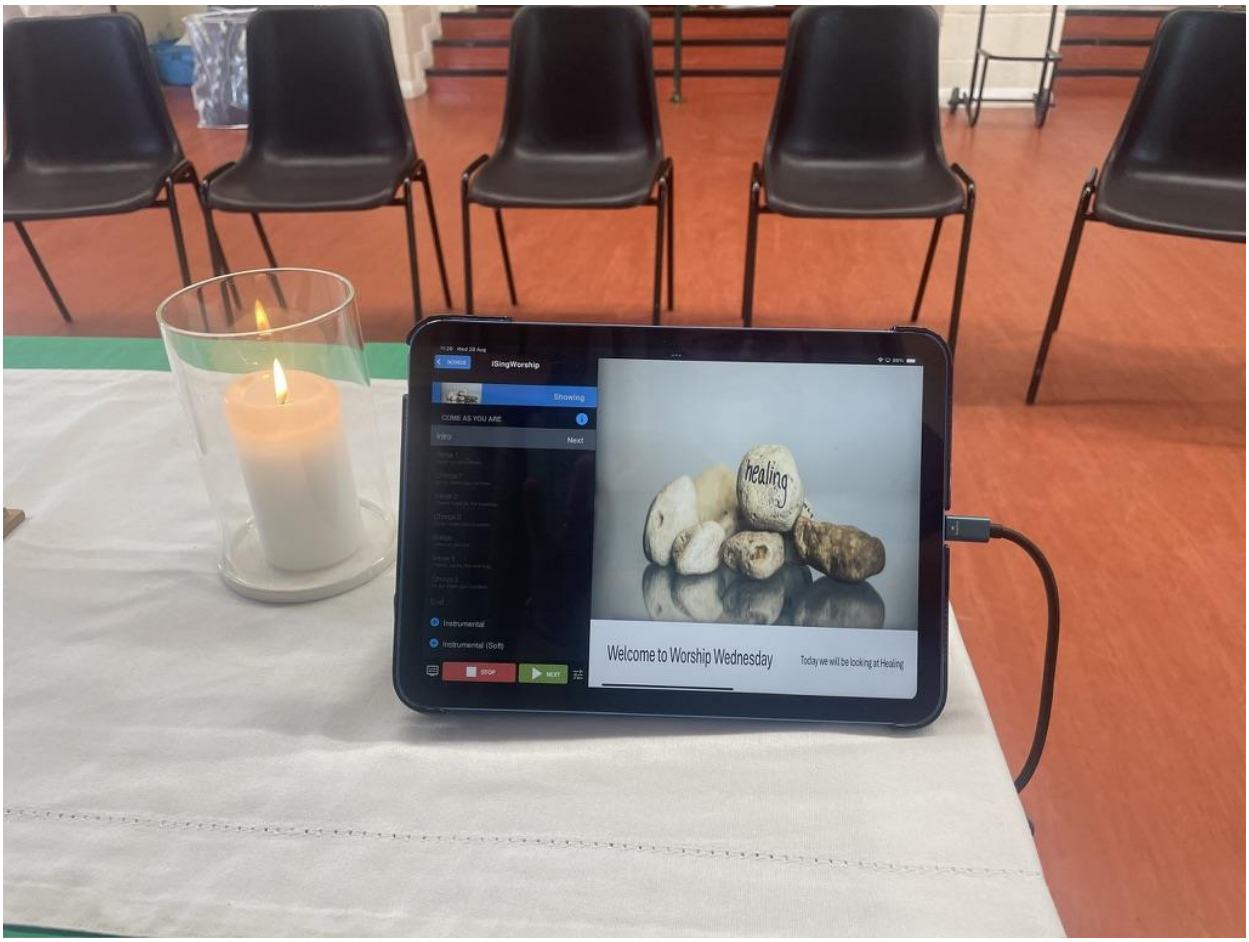

With the creation of our midweek service (Worship Wednesdays) The iPad has proved invaluable in presentations using PowerPoint.

We would like to extend our grateful thanks to the trustees for the funds which were supplied.

Things to bear in mind

1. You will need a USB C - HDMI adapter (Amazon will be your friend)
2. If you are not resting on a lectern or music stand you can purchase a bracket to go on a mike stand
3. Invest in an extra long charging lead
4. Buy a “folio” case as they fold back easier
